MALAR ENGINEERING

INTRODUCTION

Malar Engineering was established in the year 2012 and now we are one of the fast growing organisation in the field of Mechanical, Utility Piping and Steel construction field.

Malar Engineering is backed by a team of highly efficient, management specialized team focussing on expansion in different fields of construction industry and also aiming for broadening our operational performance by way of our commitment for consistent performance in construction industry.

VISION

To become one of the Best and industry preferred contracting firm. Which shall be achieved by means of Continual Growth and Periodical Assessments.

MISSION

To deliver high quality service through dedicated and highly experienced teams. Service quality will be achieved by doing a Quality job and completing the projects within the schedule.

MALAR ENGINEERING

SAFETY POLICY

Our approach to Safety and Environment is Management driven. All our personnel are fully trained to perform their tasks as required. We ensure all our activities are conforming to safe and healthy working conditions, thereby ensuring risk-free environment for employees and clients working on projects.

We train our employees and workforce on safety precautions and standard work procedures. We also educate our team about the importance of PPEs and ensure they use appropriate PPEs.

SAFETY MOTTO

Whatever the job is done

ENSURE SAFETY of persons carrying out the job
